

Deca 200 – Product information

Warning: Food supplements must not be used as a substitute for a varied and balanced diet and a healthy lifestyle.

If you are pregnant, breastfeeding or taking any medications, please consult a doctor before use.

Discontinue use and consult a doctor if adverse reactions occur.

Keep out of reach of children. Store in a cool, dry place. Do not use if seal under cap is broken or missing.

Characteristics: Dietary supplement

Form: Oily solution, 10 ml vial

Sterility: Pharmaceutical grade

Producer: MegaGear Ltd., Nam. 1. Maja 15, 811 06, Bratislava, SK, European Union

Active ingredients: all-rac alpha tocopheryl acetate, campesterol, beta-sitosterol, stigmasterol (steroids)

Other ingredients: grapeseed oil, benzyl benzoate 9%, benzyl alcohol 1.5%

Mode of action: Deca 200 is thought to act through binding to androgen receptors, displacement of glucocorticoids from their receptor, increases in the creatine phosphokinase activity in skeletal muscle, and increases in circulating insulinlike growth factor (IGF)-1, as well as up-regulation of IGF-1 receptors. According to the scientific literature there might be more ways in which the anabolic and androgenic effects of this and related compounds are mediated.

Interaction with drugs: not known

Storage: store in a dark, cool place. Does not have to be stored in refrigerator (even after opening).

Allergy: Deca 200 is not suitable for people with grapeseed oil allergy. Avoid Deca 200 if you are allergic to any of the ingredients. In case of allergic reaction immediately stop using Deca 200 and seek medical attention.

Dosage: The product is most effective when applied in intramuscular injection. The recommended dosage is 4 ml/week in one dose. If combined with other similar products, the dosage should be lowered to 2 ml/week. **Please notice that injecting dietary supplements can be illegal in some countries.** If this is the case in your country, use 0.5 ml/day under the tongue (if combined with other similar products, the dose should be halved). Do not exceed stated dose.

Advice: This product is a dietary supplement. Unlike in medical drugs, the mechanisms of action in dietary supplements are not always fully known. This product is not intended to diagnose or cure any disease. Its use for muscle growth is experimental and based on experience of tens of thousands of users.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
